**Holzprodukte:**

Holz ist ein natürlicher Rohstoff. Jeder Baum ist abhängig vom Standort verschiedenen Einflüssen, wie Klima etc., ausgesetzt. Durch diese Einflüsse wird das Erscheinungsbild (Farbe, Äste, Maserung etc.) des Holzes massgeblich beeinflusst. Abhängig von der Luftfeuchtigkeit und Temperatur, hat Holz die Eigenschaft, sich auszudehnen und kleiner zu werden. Dies kann zu Rissen führen.

Veränderungen und Naturmerkmale sind natürlich und dadurch ist jedes Massivholzmöbelstück ein Unikat.

Produits en bois:

Le bois est une matière naturelle. Chaque arbre est exposé à diverses influences, comme le climat etc., en fonction de son lieu de plantation. L'aspect du bois (teinte, nœuds, grain etc.) est fortement conditionné par ces influences. Le bois a la propriété de se dilater ou de se rétracter en fonction de l'humidité et de la température. Cela peut provoquer des fissures.

Ces caractéristiques naturelles et les changements sont normaux, ce qui fait de chaque meuble en bois une pièce unique.

Prodotti di legno:

il legno è una materia prima naturale. Ogni albero, a seconda del luogo in cui cresce, è esposto a diverse influenze come il clima, ecc. Grazie a questi agenti, l'aspetto (colore, rami, venatura, ecc.) del legno viene fortemente influenzato. A seconda dell'umidità dell'aria e della temperatura, il legno ha la capacità di espandersi e ritirarsi. Questo può portare alla formazione di crepe.

La trasformazione e le caratteristiche sono naturali e, pertanto, ogni mobile di legno massiccio è unico nel suo genere.

Wooden products:

Wood is a natural raw material. Each tree is subjected to a whole variety of influences, e.g. the climate, depending on its location. These influences are decisive in creating the way the wood ultimately looks (colour, knots, grain, etc.). Depending on the humidity and temperature, wood is capable of expanding and contracting. As a result cracks may form.

Changes and natural characteristics are natural, so each piece of solid wood furniture completely unique.

**Montageschäden:**

Vermeiden Sie indem Sie einen sauberen und weichen Untergrund verwenden (z.B. Teppich). Teile beim Auspacken oder während der Montage nur auf weiche Unterlagen legen/stellen. Darauf achten, dass grössere Teile nicht kippen können.

Dommages au montage:

Évitez les dommages en utilisant un fond propre et doux (p.ex. tapis). Lors du déballage et montage, posez/placez les éléments uniquement sur un fond doux. Assurez-vous que les grands éléments ne peuvent pas basculer.

Danni in fase di montaggio:

evitare di causare danni utilizzando una base pulita e morbida (ad es. tappeto). Nella fase di disimballaggio e durante il montaggio, appoggiare i pezzi esclusivamente su una base morbida. Fare attenzione che i pezzi più grandi non si ribaltino.

Damages during assembly:

These can be avoided if you use a clean soft surface (e.g. carpet). Only place parts on a soft surface when unpacking or during the assembly. Make sure that larger parts cannot tip over.
